

SECTION 17: WORKING WITH PDFS AND SPREADSHEET CSV FILES - 45 minutes, 5 parts

4/5 PDFs and Spreadsheets Python Puzzle

Exercise

• PDF and CSV puzzle exercise

- -> in Jupyter
- -> there is an ipynb file
- -> we have a puzzle
- -> **two tasks**
 - -> use Python to extract the Google Drive link from a CSV file
 - -> look under the Exercise Files folder
 - -> then open the CSV file in there with Python
 - -> use a Python loop to extract it
 - -> this takes us to a Google Drive link
 - -> if we can't access it, then it's also in the file
- -> we want to figure out how to find a hidden phone number in the PDF document
- -> we aren't told what the correct formatting of the phone number is
- -> there are an unlimited number of ways this can be done
